A simple pricing model

01. Talent's remuneration

02. Operational overhead

03. Clear-cut comission

A simple pricing model

the details

1. Net salary, social charges, taxes at source, severance pay reserve

These costs cover the employee's salary, all social charges, taxes deducted at source, and a reserve for potential severance pay. This is the basis of our calculation and it is entirely transparent.

2. Operational overhead– CHF 950.-

This covers all costs associated with running a business, including recruitment, office space, employee welfare, training, equipment, human resources monitoring, administrative monitoring and financial monitoring.

3. Clear-cut commission– From CHF 1'500 to 950.-

This commission depends on the number of people and the length of your commitment. The longer you commit to us and the more people you have, the lower the commission.
